## SUMMARY

---

Motivated and enthusiastic junior software developer with a strong foundation in web development technologies, seeking an opportunity to kickstart a career in a dynamic and collaborative environment. Eager to learn and grow as a professional web developer while contributing to creativity and problem-solving skills to build engaging and user-friendly websites.

## EDUCATION

---

### United International University

*Dhaka, Bangladesh*

BSC in Computer Science and Engineering

*May 2023*

### Dhaka Residential Model College

*Dhaka, Bangladesh*

Higher Secondary School Certificate (HSC)

*2013 - 2015*

- Graduated with GPA: 5.00/5.00

### Dhaka Residential Model College

*Dhaka, Bangladesh*

Secondary School Certificate (SSC) in Science

*2013*

- Graduated with GPA: 5.00/5.00

## PROJECTS

---

### Guest Glide

*Nov 2023 – Dec 2023*

- Developed a Hotel Management Web Application using MERN stack. Features include stunning homepage visuals, special offers updates, secure user authentication, intuitive room booking with date picker, user reviews, and responsive design. Implemented a custom 404 page, access control, JWT token authorization for security, and hidden credentials for data protection. Elevate the hotel booking experience with a visually engaging, user-friendly, and secure platform.
- **Technologies Used:** React, Express, Firebase, JWT, SCSS, MongoDB, AOS
- **Live Link**  | **Client Code**  | **Server Code** 

### Craft Clothing

*Aug 2023 – Sep 2023*

- Created a dynamic e-commerce website, leverages User Interface and Authentication. Seamlessly explore diverse clothing categories, effortlessly adding items to cart through Google login. Enjoy an intuitive shopping experience on this platform, where a user-friendly interface meets the convenience of secure authentication.
- **Technologies Used:** React, React Router, SCSS, Firebase, Styled Components.
- **Live Link**  | **GitHub Code** 

### Wanderer's Pizza

*Jul 2023 – Sep 2023*

- Developed a static pizza ordering website employing React Router for seamless navigation and Redux for efficient UI state management. Customers can easily place pizza orders and opt for hassle-free delivery. The integration of React Router ensures a smooth user experience while Redux efficiently manages the website's interface dynamics.
- **Technologies Used:** React Redux, Redux Async Thunk, React Router, Tailwind CSS, Mapbox
- **Live Link**  | **GitHub Code** 

## SKILLS

---

- **Programming Language:** HTML, JavaScript, C, Python, C++, TypeScript
- **Database:** MySQL, MongoDB
- **Front-end Technologies:** React.js (with Redux), SCSS, Next.js, Tailwind CSS
- **Back-end Technologies:** Node.js, Express.js
- **Version Control:** Git, GitHub
- **Authentication:** Firebase, JWT (Json Web Token)
- **Professional Skills:** Project Management, Team Collaboration

## COURSES

---

- **Complete Web Development** Jun 2023  
Programming Hero  
Batch 8

## CERTIFICATIONS

---

- CCNA: Introduction to Networks, CISCO – January, 2022
- CCNA: Switching, Routing, and Wireless Essentials, CISCO – May, 2022
- CCNA: Enterprise Networking, Security, and Automation, CISCO – Sep 2022
- UDEMY - JavaScript, Bootstrap, & PHP, YouAccel Training – 2023

## EXTRACURRICULAR ACTIVITIES

---

- Participating Hackathons
- Problem Solving
- Sports Club Activities
